

EMPLOY HIGH-ACHIEVING STUDENT RESEARCHERS THIS SUMMER

UC College of Engineering and Applied Science Protégé Program — launching the careers of undergraduate researchers since 2013

Highly talented and motivated student researchers are available for 12–15 weeks over the summer. Every student in our diverse pool has a proven record of academic achievement and a strong interest in research.

- Open to high-achieving rising sophomores
- Full-time hire at \$15/hr
- Recruiters review a compiled collection of resumé
- Program has shown proven success in industry

Research professionals in industrial and governmental organizations will mentor and guide these promising new scientists—protégés ready to push innovation forward.

To begin the recruitment process, contact Program Director James Boerio f.james.boerio@uc.edu
